The Alabama Claims.

NEW YORK, NOV. 26. The World's Washington dispatch states the convention agreed upon by Minister Johnson and Lord Stanley, for the settlement of the Alabama claims, is undoubtedly in the hands of the President. It provides for the appointment of three Comby the United States, who shall sit as the commission in Washington, and their decision on all the claims shall be rendered last night, after preparing an address to constitution ratified and the State officers

A Washington dispatch says that the British Legation has at length produced a bill against the United States Government as an offset to the Alabama claims, amounting \$45 000.000, being for damages alleged to have been sustained by the British subiects in the South during the rebellion.

The note of the Secretary of State to the Secretary of the Navy, which is herewith published, is understood to indicate the order which has been given to General Me-Mahan and Admiral Davis on the subject of the Paraguayan difficulties. Washington, Nov. 27, 1868.

To Hon. Gideon Welles, Secretary of the Navy.
Sir. A dispatch was yesterday received from Charles A. Washburne, Esq., late United States Minister to Paraguay, which was written at Buenos Ayres on 26th of September last. The dispatch shows that

a controversy has been carried on for some time between him and the Presidont of Paraguay. The therits of the controversy cannot be well un-derstood until a copy of the correspondence shall have been received, which is daily expected. Meantine Mr. Washburne's dispatches conclusively show the situation of all foreigners, including United States of these ted States citizens at Ascension, is greatly imperiled, and especially Porter, C. Bliss and George F. Mastermann, United States citizens, lately in some way connected with

the United States Legation, have suffered personal violence and have, perhaps, been murdered. A dispatch has been received from Mr.

A dispatch has been received from Mr.

Webb, Uni ed States Minister at Rio, in
which he states that he requested Rear
Admiral Davis, commanding the South
Atlantic squadron, to send or proceed with an adequate naval force to As ension to protect American citizens: Mr. Webb was unable to inform the Department whether Admiral Davis would assume the responsibility of complying without special instructions from the Government.

The situation thus presented seems to me so critical that I have thought it my duty to advise the Presinent that the Rear Admiral should be instructed to proceed with an adequate force at once to Para-guay and take such measures as may be necessary to prevent violence to the lives and property of American citizens there, and in the exercise of a sound discretion to demand and obtain prompt redress for any extreme insult or violence that may have been arbitrarily committed against the flag of the United States or their citizens. The Young Men's Christian Association closed their sessions last night. There was a large attendance. The question, "Why do so many courches fair to reach the ST. LOUIS, Nov. 27. Poor?" was the subject of discussion. The sense of the meeting on this question was summed up in the following resolutions, offered by Rev. Mr. Morton: Resolved, That so many churches falled to reach the poor, because the poor, being naturally proud and sensitive on account of their poverty, misunderstood the church

and do not believe they are welcome, even where such is the case, but mainly because the pastors, officers and members are too selfish in the enjoyment of their religion that they have too little love for souls, too little consecration to the Master's Work, too little of that universal divine benevolence which is the essential distinguished element of Christianity, and the leading principle which is to fill the whole earth with the knowledge and love of God. Resolved further, That this Convention is deliberately and solemuly impressed with the conviction that the only remedy for this evil is, first, to build plainer churches and invite poor cordially to them, proving the sincerity of the invitation and making it consistant by abolishing the system of pew renting; second, to seek out the poor and carry the gospel to them, and pray with those who cannot be induced to attend regular religious services and places

service of Christ, in saving souls. A collection was then taken up, which amounted to over \$2.000, atter which resolutions of thanks to various persons were passed. Brief farewell addresses were made by several gentlemen, and the convention adjourned In the morning there was a good Union meeting at Mercantile Hall, at which Rev. Jay Gould and James Fisk are still in pos-session of the office of the Erie railroad, but there is great reticence whether they or the newly appointed receiver, ex-Judge Davies, are running the road. Several Deputy Sheriffs were at the building this afternoon, but no one seemed able to account for their presence. Ex-Judge Fullerton, Mr. Shearman and one or two ers who are retained as counsel for the Directors, were in close consultation with Messrs. Gould and Fisk. The joint com-mittee on the stock board, who have under consideration the proposition to strike Erie from the stock list, held a meeting to-day, but without agreeing on any action ad-

The Times' says: We learn that Judge Cordoso has stayed the proceedings of Judge Davies as receiver, and has granted the same order, or the same notice, under which a rehearing is sought to be obtained before Judge Cordoso of the motion upon which Judge Davies was appointed; so that another struggle may be made to maintain Gould as receiver in the State court.
